🔍 Step-by-Step: How to Add TSA PreCheck or KTN to a Chase Travel Booking

Below is the most accurate and complete process available.

Step 1 — Locate Your Airline Confirmation Number 📞 ||+1⋯➙888⋯➙483⋯➙9719

After booking through Chase Travel, you receive two codes:

- **Chase Travel itinerary number 📞 ||+1⋯➙888⋯➙483⋯➙9719**

- **Airline confirmation number** (the one you need)

Your KTN must be added using the **airline's confirmation number**, not the Chase number. 📞 ||+1⋯➙888⋯➙483⋯➙9719

Step 2 — Go to the Airline's Website or App

Visit the airline's "Manage Booking" or "My Trips" section.

Enter:

- Airline confirmation number

- Last name 📞 ||+1⋯➔888⋯➔483⋯➔9719

Once your reservation loads, look for:

- "Passenger Information"

- "Traveler Details"

- "Secure Flight Information"

- "Add Known Traveler Number" 📞 ||+1⋯➔888⋯➔483⋯➔9719

Step 3 — Add Your Known Traveler Number

Enter your **KTN**, which is the number assigned through:

- TSA PreCheck

- Global Entry

- NEXUS

- SENTRI 📞 ||+1⋯➔888⋯➔483⋯➔9719

Your KTN must match the name on your booking **exactly**:

- Same spelling

- Same middle name or initial

- Same order of names 📞 ||+1⋯➔888⋯➔483⋯➔9719

If the names don't match, TSA PreCheck will not appear on your boarding pass.

Step 4 — Save and Recheck Your Reservation 📞 ||+1⋯➔888⋯➔483⋯➔9719

After saving your KTN, refresh your reservation or reopen the airline app.

You should see:

- "TSA PreCheck"

- "KTN on file"

- "Trusted Traveler Program" 📞 ||+1⋯➔888⋯➔483⋯➔9719

Some airlines show a green checkmark or confirmation message.

Step 5 — If You Can't Add It Online, Call the Airline 📞 ||+1⋯➔888⋯➔483⋯➔9719

Some airlines restrict edits to third-party bookings.

In that case, call the airline directly and provide:

- Full name 📞 ||+1⋯→888⋯→483⋯→9719

- Date of birth

- Known Traveler Number 📞 ||+1⋯→888⋯→483⋯→9719

"Your ticket was issued by a travel agency. They must update your Secure Flight information." 📞 ||+1⋯→888⋯→483⋯→9719
