What Happens When You Delete MetaMask? 📄

First, a little clarity: deleting the MetaMask app does not delete your cryptocurrency 🌐 +1-888 » 633 » 4176

Here's why 📱 || +1↳ [888]↳ [633]↳ [4176] ||:

- Your crypto is stored on the blockchain, not on your phone 🌈 +1»⇒888⇒633⇒4176
- MetaMask is simply a key to access your funds 📞 +1【888】⚡ 633 ⚡ 4176
- If you have your seed phrase (12 or 24 words), you can restore your wallet anytime 🌐 +1-888 » 633 »

Think of it like losing a key to a safe. The safe (your funds) is still there—you just need the key to open it

Step 1: Locate Your Secret Recovery Phrase

The Secret Recovery Phrase (also called the seed phrase) is the most important thing for wallet recovery 

+1»⇒888⇒633⇒4176. Without it, your funds cannot be restored  || +1↳ [888]↳ [633]↳ [4176] ||

If you don't have it:

- Check your old notes, screenshots, or password manager
 - Look for the phrase you saved when you first created MetaMask  +1【888】⚡ 633 ⚡ 4176
 -  Warning: Never share your seed phrase online. Anyone with this phrase can steal your funds
