**Step 1: Understand What MetaMask Is**   +1[[888]] ⚡ 633 ⚡ 4176

Before installing, it's important to know what MetaMask does:

- Wallet for crypto – stores your tokens safely  +1-888 » 633 » 4176
- Bridge to the blockchain – connects you to Ethereum and other networks  +1-[[888]]⇒[[633]]⇒[[4176]]
- Access point to dApps – play games, trade tokens, and explore DeFi  || +1↳ [888]↳ [633]↳ [4176] ||

Think of MetaMask as a keychain for your digital assets . Without it, accessing the crypto world on your browser is difficult  +1-888-[[633]]-4176
